

RounBackFlange

Data Sheet

General Characteristics of Round Back Static Vent with Curb Mount Flange, RounBackFlange.

The Round Back Static Vent with Curb Mount Flange is a versatile solution that serves both as an air exhaust and air intake vent.

It effectively removes air from ducts or attics while allowing fresh air to circulate, keeping rain and snow out.

This roof vent is specifically engineered with a curb mount flange, making it suitable for installation onto roof curbs.

The Round Back Vent with Curb Mount Flange is designed to fit over a curb, thanks to its cup-like shape flange.

The flange securely attaches the vent to the curb, providing easy access to the attic cavity or duct below.

The curb offers additional clearance by elevating the vent off the roof deck, allowing for installation in various climates.

The height options of the curbs have been engineered to cater to different climate zones, ensuring optimal performance and durability.

Product Applications of Round Back Static Vent with Curb Mount Flange, RounBackFlange.

It adapts to residential and commercial buildings, as well as roofs with flat or steep slopes. A professional can install a Fan in any climate zone and on all types of roofs.

Consult the climate zone chart to determine the appropriate collar height for installation in your area. Homeowners and professionals can install these vents on both new roofs and to replace old roof turbines.

Please refer to the installation instructions provided by AVP to ensure proper installation and maximize ventilation effectiveness. Roof vents require no maintenance.

Warranty of Round Back Static Vent with Curb Mount Flange, RounBackFlange.

Manufacturer's Warranty: 1-Year
